

Parkland

Dear Doctor,

Prior to any patient contact at Parkland Hospital you are required to provide Occupational Health Services with your immunization records. Below is a list of the required immunizations.

1. Current TD or TDAP (plain Tetanus is not adequate; it must include the Diphtheria component).
2. Full series of Hepatitis B vaccine and positive antibody level.
3. Two doses of MMR vaccine or equivalent (2 doses Rubeola, 2 doses Mumps, 1 dose Rubella) given after your first birthday and at least 30 days apart, or documentation of positive antibody levels.
4. Positive history of Varicella, or documented positive Varicella titer, or documentation of two Varicella vaccines given 30 days apart.
5. Current PPD within **6 months** of start date. If you have a history of positive PPD you will need a current (within 12 months) CXR within a year prior to start date.

If your vaccine record is incomplete, you may obtain the necessary vaccines at our office. You will be charged for any vaccines or lab work except PPD and/or CXR, which we provide as a courtesy. Below is the charge for vaccines and lab tests.

#### IMMUNIZATIONS

Hepatitis B	\$40.00
MMR	\$50.00
TD	\$30.00
TDAP	\$40.00
Varicella	\$75.00

#### LABS

HBSAB	\$50.00
HBCAB	\$55.00
HBSAG	\$50.00
Measles Titer	\$40.00
Mumps Titer	\$60.00
